## Overview

The home of pinot gris is Alsace, France where the extreme cool climate makes wonderful, rich, intense wines with a little residual sugar to balance the powerful fruit and high alcohol.

Our Pinot Gris is sourced from Victoria. As pinot gris is a pink grape with tough skins, the fruit is whole bunch pressed to avoid colour and tannin extraction in the juice. The clarified juice has been completely fermented in stainless steel and bottled early to capture the intense aromatics and pure fruit characters, typical of the variety.
