liquid gold hawkes bay chardonnay 2010

“I believe the essence of New Zealand wine is the absolute pristine fruit characters derived from our superb climate and dramatic geography ”

A true strength of Hawke's Bay; This vibrant, juicy Chardonnay is a pleasure to drink. Citrus and tropical notes compliment a textured luscious, mouth filling palate – beautiful!

winegrowing:

The season started with cool spring temperatures, which led to reduced fruit set in the Chardonnay. The combination of this reduced yield, free draining soils and good canopy management, led to excellent fruit quality and condition.

This Chardonnay has seen managed oak maturation, incorporating new and older barrels. Crisp apple and melon fruit flavours combine with oaky spice notes, finishing with a creamy texture.

ALC. 13.5%
