KLIPDRIFT EXPORT BRANDY

Klipdrift - South Africa's best-selling brandy.

Klipdrift is the market leader in brandy, and has over time become almost synonymous with the brandy category in the minds of consumers.

The first Klipdrift brandy was blended, bottled and sold from the farm Klipdrift near Robertson in January 1938. At first the owner and cellarmaster, JP Marais, made limited quantities of this exclusive brandy available - selling it by means of direct mail order.

Today the Klipdrift Distillery in Robertson still practises the quality standards initiated by Kosie Marais. From this humble beginning, Klipdrift Export Brandy has established itself as a leader in the African brandy industry. To this day it is still vat-matured and blended the time-honoured way, to give you the smooth, full-bodied taste of genuine Old Cape Brandy.

Klipdrift is synonymous with generosity and hospitality. No matter where you are, when you open a bottle of Klipdrift the kuier starts right there and then. This phenomenon inspired our new campaign and the payoff: "Make yourself at home"

Full bodied and smooth. Light chestnut in colour. On the nose, very typical of this brandy, are the fruit flavours, such as ripe apricots. There's also a little bit of nuttiness – think of toasted hazelnuts. Most notable on the pallet is the long, lingering aftertaste.

The potstill content of this product is, by law, a minimum of three years. It's matured in wood for a minimum of 3 years.

43% Full strength Brandy.
